

DISCLAIMER – PLEASE READ!

This list contains information that is freely available to the public. This list may not reflect recent case updates, so some information may be dated or inaccurate. The issuance of a warrant does not indicate guilt of the commission of an offense. It merely indicates that a Judge has found sufficient probable cause to believe there has been a commission of an offense, or that a defendant has failed to appear in court or satisfy some other court ordered fines or conditions.

Many people share same or similar names, so you should not assume that any name on this list is a particular individual until that information has been verified. A search of specific cases can be conducted on Courtview via the *Online Case Records Search* link on the Circuit Clerk's site found at:

<http://www.co.kankakee.il.us/circuitclerk.html>

If you have specific questions about any specific case, you should contact an attorney.

The case information contained upon this list is generated from computerized records maintained by the Circuit Court of Kankakee County and law enforcement, and is deemed to be public information. This information is not the official record of the Circuit Court. While every effort is made to ensure the data is accurate and current, it must be accepted and used by you with the understanding that no warranties, expressed or implied, concerning the accuracy, reliability or suitability of this data have been made.

There may be a delay between the filing of a document with the Clerk of the Circuit Court and its entry in this website or submission to law enforcement. The official records of the Circuit Court are held and maintained in the hard copy paper files with Clerk of the Circuit Court. Any and all information contained within the on-line database is recorded as a brief summary from the paper documents.

No liability whatsoever is assumed in connection with any use or misuse of the data contained herein including any resulting loss, consequence or damage.

This list only contains warrants that have been issued in traffic or misdemeanor cases – NOT felony or other cases.
